

Partnered Learning Project

IPE Materials

Student IPE Post-Placement Evaluation

Program (eg. 8C): _____

Current professional program: _____

What were the 3 most important things that you learned in the IPE placement?

What do you wish had been different or would have helped you learn more about IPE?

Do you think this experience has changed your experience as a learner?

How do you think this experience will affect you as a new graduate in your profession?

We are trying to learn more about how IPE affects patient care directly. If possible, please describe a situation during which your learning from the IPE educational experience had a direct impact on patient care.

Thank you!
